

Work Less-make more money!
Do what you love- Quaterly Coach Workshops

You have questions about the Lab Business in 2009 too?

"You can't shrink your way to success; it's no time to be selfish. Opportunities await the brave."

Reg Goulding, President, DCS Smile Science Leadership Institute
Exclusively serving dental technology since 1998

If you are a business owner, like the rest of us you must be asking: "What are my best options?" Expand, hunker down and hold-on. Join an alliance group to learn, share, save and expand my market, buy another lab, sell?

Employees are asking their own questions: how secure is my job? What are my choices? What if any type of future is there for me? How can I find a secure job? What are lab owners looking for so I can stand out?

We have many of the answers as well as many of the same questions as you. Progressive lab owners seizing the opportunity to hire techs losing their jobs are signing on at www.DentalCareerServices.com and they are impressed. *Hundreds of techs visit our site daily seeking new career opportunities. We are by far still the #1 website exclusively serving Dental Technology since 1998.* Little advertisement there; sorry it helps pay the bills ☺

The **DTQ Dental Technician Quarterly** and DTQNews Monthly are the official voices of the www.dtia.net your professional association.

We want to hear from you! Our latest "[Ask the Expert](#)" Questions & Answer section of the DTQNews Monthly needs your input. About work place issues, business, marketing, career, branding sales questions anything to do with dental technology. We all see the industry from a different perspective but not often get to share thoughts. Some of us from a national or global others regional, from an employee's or owner's perspective we want to hear from you today. [Email your questions](#) we will ask others and print the answers next month. 26 years and it is still a privilege and pleasure to serve you. Sincerely Reggie www.SmileScience.com
